

AccessPack Application Kits

Crane Radio Kit - 1

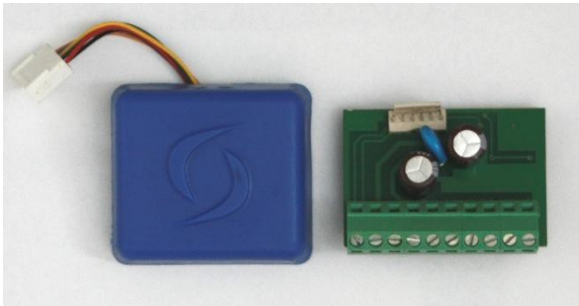

Input voltage: 5-10VDC
Inputs: E-Stop
Heartbeat
Outputs: 1 logic level
1 open collector (100mA)
Applications: Battery powered equipment
Part No.: APP100

Crane Radio Kit - 2

Input voltage: 5-10VDC
Inputs: E-Stop
Heartbeat
Outputs: 1 logic level
1 open collector (100mA)
Applications: HBC Spectrum Remote Control
Part No.: APP101

Crane Pendant Kit

Input voltage: 12-240 VAC/DC
Inputs: E-Stop
Outputs: 2 Relays (0.5A)- EStop and Start
Applications: Crane Pendants
 Small fixed equipment (presses, lathes, coffee machines etc)
Part No.: APP102

Pendant Starter Kit Bundle

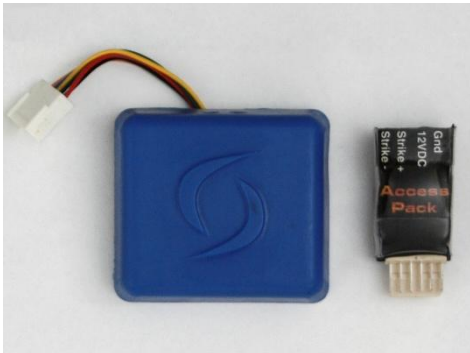

Input voltage: 12-240 VAC/DC
Inputs: E-Stop
Outputs: 2 Relays (0.5A) EStop and Start
Applications: Plug and play kit for pendant cranes.
 AccessPack supplied in basic mode with 10 cards.
Part No.: APP110

Vehicle Kit

Input voltage: 8-36 VDC
Inputs: E-Stop
 Heartbeat
Outputs: 1 relay, NO/NC (10A)
Applications: Forklifts
 Light vehicles
 PLC based equipment
Part No.: APP103

Door Kit

Input voltage: 7-24 VDC
Inputs: None
Outputs: Door Strike Interface
Applications: Doors to store rooms, tool stores, hazardous equipment boxes etc (Lock supplied separately.)
Part No.: APP105

Fixed Equipment Kit

Made to order

Input voltage: 110-440VAC
Inputs: EStop
Start
Outputs: 2 x 440V, 16A solid state relays
Applications: Large fixed equipment
Hydraulic power packs
Part No.: APP106

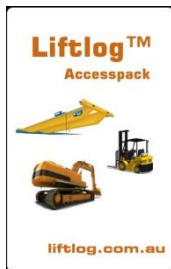

AccessPack Manager Software License

Reader kit is supplied with the first year's subscription.

Part No.: APL100

AccessPack Cards

Programmable RFID card for use with AccessPack.

Part No.: APC100

AccessPack PDA

HP iPAQ 212 PDA preconfigured for operation with Liftlog and/or AccessPack.

Part No.: APH100

AccessPack Dual Card Holder & Lanyard Set

Card holder for 2-3 cards that are locked in place by a semi-removable tab. Comes with a lanyard.

Part No.: APCH10
